

Click to Call — In-App Customer Calling

Customers reach support with one tap inside the app — no phone number to dial, full context on arrival, voice &

Why it matters

No phone number needed

Support lives inside the app — one tap and the customer is in the queue

Context travels with the call

Who is calling and why — no "please repeat your details", smarter routing

Faster and cheaper

Media rides the internet — no PSTN minutes, global reach at app scale

video over the internet
